

Entry Formatting

Posted by thabiet.davids - 2009/11/18 21:22

Salaam,

i am not too sure what i am doing wrong, but all my formating seem to disapear as soon as I save my information on an entry, things like bold, Italics, underline even my line spacing.

Please let me know where I am going wrong.

thanks

Tagmiedah Abrahams

Salaams Tagmeedah,

The description field doesn't allow formatting, as this field is really a brief description of the organisation.

The other fields allow the full formatting and should be utilised. If you don't want the default formatting or table, simply:

- 1) Click on the toggle button to change to html formatting
- 2) Delete all the text
- 3) Click on the toggle button again to change to formatting mode.
- 4) Now you can enter all your items.

Furthermore, I am going to change the Activities Tab to the Noticeboard where you can add your notices or adverts.

Regards,
Thabiet.
